It is a pleasure to anyone interested in machinery to look at the new enterprise put up by Krueger and Lueber. Their picket machine, three saws, and molasses mill, grind stones, etc., everything run by steam power. As soon as a roll of pickets is finished they hoist it up by a crane and let it come down into a cistern filled with boiling oil and paint, heated by steam. We can almost guarantee pickets treated like that to last a long time.

My little boy, when two years of age, was taken very ill with bloody

flux. I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy, and luckily procured part of a bottle. I carefully read the directions and gave it accordingly. He was very low, but slowly and surely he began to improve, gradually recovered and is now as stout and strong as ever. I feel sure it saved his life. I never can praise the remedy half its worth. I am sorry every one in the world does not know how good it is, as I do.—Mrs. Lina S. Hinton, Grahamsville, Marion Co., Fla. For sale by the Shier Drug Co.
